

SMRITI KUMARI

SOFTWARE ENGINEER

7858083694 | smritiku2023@gmail.com | [GitHub](#) | [Linkedin](#) | [Portfolio](#)

Summary

Physics graduate transitioning into software development with a strong foundation in analytical thinking and problem-solving. Hands-on training in software development with skills in JavaScript, PHP and Reactjs. Experienced in building dynamic and responsive web applications, integrating REST APIs, and working with databases.

Technical Skills

Languages: PHP, JavaScript, C++, C#, C

Frontend : React.js, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Material-UI,

Backend : Express.js, Node.js, PHP

Database: MongoDB, MySQL

Tools: Git, GitHub, Vite, VS Code, XAMPP, npm, REST APIs, Render, Netlify, Vercel

AI Tools: Gemini, Chatgpt, Cursor, Codex, Antigravity, Github copilot

OS: Windows, Basics of Linux commands

Projects

QTrip-(Dynamic Travel Website)

Skills: HTML, CSS, JavaScript, HTTP, REST, DOM Manipulation, Event Handling, Deployment using Render, cURL, JSON

- Constructed web pages using HTML, CSS, Bootstrap, and JavaScript.
- Improved UI/UX of the website with multi-select filters, image carousels, and conditional rendering of page elements .
- Utilized local storage to persist user preference at client-side and facilitated reservation form submission using fetch API.
- Deployed the website using Netlify for Frontend and Render for Backend.

QKart Full Stack -(E-commerce Website)

Skills: MongoDB, Express, React, NodeJs, Debouncing, Local Storage, React Hooks, Mongoose , ES6, Material UI, Hashing, Keyword Search, JWT Tokens, MongoDB Atlas, Unit Testing, Postman

- Spearheaded the implementation of core logic for authentication, shopping cart, and checkout .
- Orchestrated the integration of REST API, delivering a substantial 15% reduction in page load times.
- Implementing multiple schemes and validating through comprehensive tests.
- Established secure API endpoints, achieving an outstanding JWT token authentication success rate of 98%.

QTify-(Music Web Application)

Skills: ReactJS, Module-scoped CSS, flexbox, Material UI, Swiper, API Integration, Vercel, Figma

- Developed a feature-rich song browsing application using ReactJS, integrating Material UI and Swiper for a seamless user interface and experience.
- Implemented a dynamic and responsive UI with reusable components such as Cards, Carousels, and Buttons, ensuring consistency and efficiency across the application.
- Created an intuitive genre-based song filtering system using customized Material-UI Tabs and integrated REST APIs for data fetching and error handling.
- Deployed the QTify application to Vercel, showcasing expertise in continuous deployment and cloud-based hosting solutions.

Experience

Subject Matter Expert -LearnAsYouGo

[Jan 2023-Mar 2025]

- Solved Physics and Mathematics problems for Classes 8–12 with accurate, structured solutions.
- Applied analytical thinking, logical reasoning and problem-solving skills.

Education

Bachelor of Science -Physics

Aug 2019-Sept2022]

Jamshedpur Women's College || 9 CGPA

Training

Crio.do : Fellowship in Software Development - (Full-Stack Specialization MERN)

[Feb 2025 - Present]

- Completed one years of intensive coursework, enhancing skills in MERN stack, REST APIs, Git/GitHub, and responsive web development through project-based learning.
- Engaged in 5+ complex projects and exercises, including QKart, QTify, and XBoard, focusing on API integration, CRUD operations, authentication, search, filtering, and dynamic UI development.
